

# In Manchester

## Wire

One of the men that spawned fibre optic prawns  
Barely concealed a grand canyonic yawn  
Passed a Nationalist getting buried in Manchester  
Tricolour flying, the sun shining, large crowd around  
A freshly dug grave, priest arm blesses, the flag is waving  
Stern Indian serves original flavourings  
In Manchester I don't yet know how my story will end  
Dead or in prison? Completely around the bend  
A strong punch was essential, dust heads exploded  
In Manchester  
Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
