

Can't Keep a Good Man Down (Remastered Version)

Randy Newman

Everybody, gather 'round me
I got somethin' I wanna tell you Listen, when you're on the bottom like I am today
Those around you are losing faith in what you're tryin' to do
There is only one thing a man can say
'You can't keep a good man down' There've been mistakes and I've made a few
But oh, what a price I had to pay
Yet still they try to push me around
But they can't keep a good man down There may be times when I'm feelin' low
I lose sight of the dream
But that's alright 'cause soon I know
I'll be back on top again, runnin' things, hey, hey Treat a man like dirt, give him no respect for who he is
Expect something dirty in return
Oh, they're flyin' high up there, they've got a lot to learn
Because you can't keep a good man down They shame me, blame me, tryin' to frame me
But they can't keep a good man
They can't keep a good man
They can't keep a good man down, whoa, whoa, whoa
They can't keep a good man down
