

Lovesick

Priscilla Renea

Yo if lovin' you is wrong, I don't want to be right
(Giggle) I bet you knew i was going to say that
That's because its true
Ohhh Ohhhh Oooo yeah
Uh uh
I use to tell you the stories about my childhood
you never ever believed me
about how i slept in trailer on a bed full of paper
uh
okay well maybe I'm lying
& its seems like lately when where talking on the phone
all you ever say is how i should leave you alone
Everybody is telling me what i should do
i cant help myself im so into you
the doctor said that im love sick
Well i guess I'm gonna be sick forever
And I'm sorry to say that you made me this way
And i dont ever want to get better
Nooooo
It's obvious that I'm love sick
Yeah
And maybe that I should take my medicine
Try it as you may
No matter what you do
I can never get ride of you
you act like you dont remember
how you first met me
back when we were in grade school
i sat behind you in history
i use to day dream about the day i would have you
& it seemed like if i mentioned you when i was home
all my family said is how i should leave you alone
everybody is telling me what i should do
i cant help myself im so into you
the doctor said that im love sick

well i guess im gunna be sick forever
& im sorry to say that you made me this way
& i dont ever want to get better

nooooo
its obvious that im love sick
yeah
& maybe that i should take my medicine
try how hard you may
not matter what you do
i can never get ride of you
ooooohhhhhh
the doctors they couldnt be wronger
i think that we could last forever
dont want stay but i cant leave
nooooo
dont pay attention to them others
they dont want us to be together
i dont see why
because im perfectly fine
they keep on tellin me that im love sick
well i guess ill be sick forever
& im sorry to say that you made me this way
but i dont want to get better
nooo
You keep on sayin that you think im crazy
& that maybe i should take my medicine
try how hard as you may
i could never get ride of you
No x 14
You keep callin me crazy
sayin maybe i should take my medicine
try how hard you may
no matter what you do
i can never get ride of you
(laughter)
