

# When Jah Call

## Burning Spear

When Jah call  
Get ready, get ready When Jah call on you to move along, you better get ready  
When Jah call on you to move along, you better get ready  
When I look around us what do I see? War  
When I look around us what do I see? War War in the east  
War in the west, war  
War in the north  
War in the south, war Get ready, get ready, get ready, get ready  
Get ready, get ready so Jah say  
A so Jah say, get ready, get ready  
So Jah say, a so Jah say When Jah call on you to move along, you better get ready  
When Jah call on you to move along, you better get ready  
When I look around us what do I see? War War in the east  
War in the west, war  
War in the north  
War in the south, war When Jah call on you to move along, you better get ready  
Get ready, get ready
