Crazy Feeling

Lou Reed

You're the kind of person that I've been dreaming of
You're the kind of person that I always wanted to loveAnd when I first seen you walk right through that bar door
And I seen those suit and tie johns buy you one drink
And then buy you some more, I had aI know you had that crazy feeling
Now, now, now, you're got that crazy feeling
You know that I've had that crazy feeling, too
I can see it in yourYou got that crazy feeling
Now, now, now, now, now, you got that crazy feeling
I've had that crazy feeling, tooNow everybody knows that business ends at three
And everybody knows that after hours love is freeAnd you, you really are a queen
Oh, such a queen, such a queen
And I know, 'cause I made the same scene
I know just what you mean, becauseYou got that crazy feeling
Now, now, now, you're got that crazy feeling
You got that crazy feeling deep inside
Now, I can see it in your eyesYou got that crazy feeling
Now, now, now, you're got that crazy feeling
And you got that crazy feeling, too
I feel just like, feel just like you(crazy feeling, crazy feeling)
