Vegas

Shamir

Fantasy meets reality
Dancing lies won't let you barely breathe
Energies, ignite like kerosene
Electric means guaranteed to reach a peakBest believe this city has just what you need
Come and play, there's no place you would rather be, ohThan Vegas, Vegas, Vegas, Vegas
The city's alright
At least at night
Than Vegas, Vegas, Vegas, Vegas
The city's alright
At least at nightWildest dreams take on new meaning
Roaming guys waiting for a destiny
Symphonies, ka-ching, ka-ching, endlessly
Pick and choose secrets never leave the sceneBest believe this city has just what you need
Come and play, there's no place you would rather be, ohThan Vegas, Vegas, Vegas, Vegas
The city's alright
At least at night
Than Vegas, Vegas, Vegas, Vegas
The city's alright
At least at nightBest believe this city has just what you need
Come and play, there's no place you would rather be, ohYou can come to the city of sin and get away without bail
But if you're living in the city oh you already in hellCuz it's Vegas, Vegas, Vegas, Vegas
The city's alright
At least at night
Oh in Vegas, Vegas, Vegas, Vegas
The city's alright
At least at night
At least at night
At least at night
At least at night
The city's alright
At least at night
