

# Fly Away (Butterfly Reprise)

Mariah Carey

Don't be afraid to fly  
Spread your wings  
Open up door  
So much more outside Don't be afraid to fly  
Come spread your wings and just fly  
Spread your wings and see the light inside  
Fly, just fly  
Don't be afraid  
Don't let your spirit die  
She says "Spread your wings and prepare to fly  
For you have become a butterfly  
Spread your wings and prepare to fly  
For you have become a butterfly" Spread your wings and prepare to fly  
For you have become a butterfly  
Spread your wings and prepare to fly  
For you have become a butterfly Don't be afraid to fly  
Don't be afraid to just fly  
You, you've become a butterfly  
Don't be afraid to just fly Butterfly  
Feel it fly  
Fly away  
Far far Butterfly  
Feel it fly  
Fly away  
Far far  
Far far Butterfly  
Butterfly, spread your wings  
Butterfly Spread your wings and prepare to fly  
For you have become a butterfly  
Spread your wings and prepare to fly  
For you have become a butterfly Fly away  
Fly away  
Fly away  
Fly away, butterfly  
Fly away  
Fly away  
Fly away  
Butterfly
