

Purveyor of Fear

Hellwitch

the creations of his mind
persistent in his quest
admonishment of life
obsessive viscious death
monuments of fortune
remnants in the past
destruction comes unto thee
ino fire all are castexisting in torment and knowing the fate
a now lost world stricken with hate
al is forgotten, powers felt near
reigning almighty, purveyor of fear
pervasiveness of fear
necrolatry now law
instillment of the end
ubjugation unto all
strength among the masses
now within his grasp
destruction comes unto thee
into fire at all are cast
the planes of neutrality
in mind, on earth, condemned
clutching for reality
no life, no time, no end
malevolent starvation
deciduous decimation
populous extinction
for he, forsaken manfear!
