

# Night life

## Brothers Grimm

I was a young girl  
Knew next to nothing  
Living in the suburbs  
And my heart was lusting  
    For a new way  
    And a new sound  
Crawled over my hang-ups  
    In the underground  
    I had a break through  
    I had to shake you  
You could've come too  
To see my point of view  
We got a breakthrough  
    It was my debut  
    It didn't faze you  
But it meant something to me  
Night life, beneath the surface  
Night life, some say it's worthless  
    High life, instead of being  
Inside, it's a song you're singing  
    Night life, if there's no spirit  
    Night life, then don't go near it  
    Night life, to have it over  
Inside, you can find your life in the night life  
    If you are feeling  
    Like you don't have nothing  
    Under pressure in the cooker  
    With your head in the oven  
        There's a new way  
        So come on down  
    Life ain't never really over  
    When you're underground  
    You need a breakthrough  
        You need to make do  
        You need to come to  
    A brand new point of view  
    You need to break through  
        And then get wise too  
        Our love is taboo

And you'll be something to see  
Night life, beneath the surface  
Night life, some say it's worthless  
    High life, instead of being  
    Inside, it's a song you're singing  
    Night life, it's a heart you're racing  
        Night life, it's a billion daisies  
    Night life, it's the cash your making  
Inside, you can find your life in the night life  
    It's beneath the surface  
    Some say it's worthless  
        It's a low gut feeling  
    It's the rush you're feeling  
        You can beg your spirit  
        If you let that leave it  
    It's the back you're breaking  
Are you ready for the night life  
    Night life, night life  
    Night life, love life, inside  
Find your way to hide in the night life  
    (Night life, night life, night life)  
    You can find a life in the night life  
        (Night life, love life, inside)  
Find your way to hide in the night life  
    You can find a life in the night life
