Goodbye, so Long

Silver

The long, lonely nights
I spent all alone
Even with you by my side
And all the bright lights
We've seen now are gone
It feels like the end of a ride

Goodbye, so long, I bid you farewell
It seems so long since I knew you well
Goodbye, so long, I bid you farewell
We've bought all there was left to sell

l remember a time

When we both were young
Memories not so long ago
A feeling so fine, yeah
We had begun
A magic that's no longer so

Goodbye, so long, I bid you farewell
it seems so long since I knew you well
Goodbye, so long, l big you farewell
We've bought all there was left to sell
