

That Makes One of Us

[Alison Krauss](#)

You've made up your mind, we don't want the same thing
And that we can't change things wishing there were ways
And there's no use staying together
Nothing lasts forever that's what you say And that makes one of us not in love
And that makes one of us that can't give up
If you can walk away from the life we've made
Then that makes one of us I still believe we've got something worth saving
I keep hoping and praying for another chance
You've held my heart and you're gonna break it
'Cause you wanna make it a part of your past And that makes one of us not in love
And that makes one of us that can't give up
If you can walk away from the life we've made
Then that makes one of us
Then that makes one of us
