

# No Harm

## Teenage Reverb

Maybe there's no use  
In things being like they used to  
And maybe there's no use  
In the way it was before  
And if I found time  
We'd go away with your way  
And if we found time  
I'd want it more and more  
And maybe there's no harm, there's no harm, there's no harm in -  
Maybe there's no harm, there's no harm in you  
And maybe there's no harm, there's no harm, there's no harm in -  
So watch what you say,  
There's a beast that's in me.  
I'm the true recluse  
Blissful as a loner  
And all that we have left  
Is never like before

Delivered on a word  
Never near the target  
Seen for what it was  
And never eye to eye  
And maybe there's no harm, there's no harm, there's no harm in -  
Maybe there's no harm, there's no harm in you  
And maybe there's no harm, there's no harm, there's no harm in -  
So watch what you say,  
There's a beast that's in me.  
(ohhhh...)

You stand by watching the world let me down  
And maybe there's no harm, there's no harm, there's no harm in -  
Maybe there's no harm, there's no harm in you  
And maybe there's no harm, there's no harm, there's no harm in -  
So watch what you say,  
There's a beast that's in me.  
(ohhhh...)
