

# I Don't Want It

## The Black Box Revelation

Wooh

Well, I gave love a chance and it shit back in my face  
And I just quit my job makin' toothpicks out of logs  
You know it's gettin' thin when your friends turn you in  
Better sock away your bread, there's a worse time ahead  
And I don't want it  
Not today, no no  
I don't need it  
So take it away, yes  
Get along right here  
Flowers make me sneeze and prayin' hurts my knees  
Funerals make me cry and I don't wanna die  
Gettin' high's a gas, but stayin' high, I'll pass  
Goin' to school's alright but teachers are uptight

Wooh, I don't want it  
Not today, no no  
I don't need it  
Take it away, yeah  
I said I, I don't want it  
Not today, no no  
I, I don't need it  
Take it away, yeah  
I don't want it  
Not today  
I don't need it  
Take it away, yeah  
I said I don't want it  
Not today, no no  
I, I don't need it  
Take it away, yeah, yeah, yeah
