

# Shake The Ground

## Proper Dos

You serve it up like I want some,  
but I don't want your opinion  
You load it up like shotgun,  
Pull the trigger,  
don't you love it when you take one out? Take one out I won't do what I'm told  
I will break you down,  
Take you down,  
Shake the ground  
Your dark sun leaves me cold  
I will burn it out,  
Wear you down,  
Shake the ground You got the whole world choking  
From all the bridges that you're burning  
You're not the leader of an army,  
I'm not the enemy  
Step back down Step back down I won't do what I'm told  
I will break you down,  
Take you down,  
Shake the ground  
Your dark sun leaves me cold  
I will burn it out,  
Wear you down,  
Shake the ground So tie your rope  
Your karma's killing me  
I hope you know  
You'll never get to me  
Your cover's blown  
There's no more breaking me  
This is the end of control I won't do what I'm told  
I will break you down,  
Take you down,  
Shake the ground  
Your dark sun leaves me cold  
I will burn it out,  
Wear you down,  
Shake the ground
