Get To The Gone

Static-x

Get to the gone
Under the gun
Drop in, drop out
Get to the gone
Get to the gone, it's just the way you wanna be
Under the gun, it's just the way to be
Drop in, drop out, to begin with, it's killing me
Killing the one thing I know this to be, yeah
I fly, I fly around the world
Through the night sky
I feel the end, the end is near
Relations die
One mile, ten thousand miles
Makes no difference
Changes more changes
Go!
Get to the gone
Under the gun
Drop in, drop out
Get to the gone
Get to the gone, it's just the way you wanna be
Under the gun, it's just the way to be
Drop in, drop out, to begin with, it's killing me
Killing the one thing I know this to be, go!
Go!
Get to the gone
Under the gun
Drop in, drop out
Get to the gone
