

Buck-Toothed Particle Smashers

Clarence Clarity

Was it genetic?
Did you catch it?
It hadn't bled
Until you tapped it
She's sun bleached
And your lucks in Whatever gets you off
Incestuous love You didn't know you'd get infected
Late night when you crept in
I wouldn't advocate eugenics but-Whatever gets you off
Incestuous love It's the yin and the yang
And the yang and the yin
Life without sex
Is a life without sin
We're just buck-toothed players
Playing ourselves out. Expect I'll get what you expected
Its benign but defected
Its the fluoride I ingested Atoms to dust
Infinite love I'd quit but I don't know when to stop
When the tar in my veins begins to clot
Do I sound like I mean it? Do you mean it? It's the yin and the yang
And the yang and the yin
Life without sex
Is a life without sin
We're just buck-toothed players
Playing ourselves out. It's what's inside the blister
A good girl and her sister
Love puss filled confessor It swells till it blows incestuous love Pornstruck absolution
Please cure my confusion
I might need that infusion Padre padre Absolvo te It's the yin and the yang
And the yang and the yin
Life without sex
Is a life without sin
We're just buck-toothed players
Playing ourselves out.
