## Walter TV

shingle  
its a summer night  
summer night  
with no t shirt on  
warm wind brings  
sweat to your back  
taking this walk alone  
shaky trees get you looking up  
looking up to see that there's a  
black hole  
black hole  
black hole  
black holethe sound of frogs fill the lawn  
up to your knees in the waves  
its the middle of the night  
nothing left to do  
laying out on your back now dude  
looking through the clouds you see  
you look up and see that there's a  
black hole  
black hole
