

# Under The Floor

## Switchfoot

Under the floor, between me and the door  
There's a presence I cannot deny  
It's under the car, between me and the stars  
I see glory filling up the sky  
And I'm now certain that He hears me  
He listens even as I sing my song  
I'm emphatic that He's near me  
And I can see His touch in everything here  
Deep is the soul is the space I control  
Is the one thing I can call as mine  
Deeper the cold when He's far from my soul  
I surrender all of me inside

And I'm certain that He hears me  
He listens even as I sing my song  
I'm emphatic that He's near me  
And I can see His touch in everything here  
Yeah, in everything here  
And I'm now certain that He hears me  
He listens even as I sing my song  
I'm emphatic that He's near me  
And I can see His touch in everything here  
Yeah, in everything here  
Yeah, in everything here
