That's What Makes You Mine

Heffron Drive

I know you think love songs are cheesy
You said your wedding dress won't be in white
You're not one to make things easy
Cuz when you're wrong you still know that you're right
Said I'm not the type you fall for
But this trip is taking us so far
I never thought we'd be together
But now look at where we are

We just don't make sense
We don't work on paper
We're so not right
But that's what makes you mine
That's what makes you mine

You're not a typical kind of beauty
And you're always dressing down to spite
You only go to indie movies
And you hate it when the story turns out right
You make a scene whenever you want to
No surprise when they all stop and stare
You never care what people say about you
All they get is a finger in the air

We just don't make sense
We don't work on paper
We're so not right
But that's what makes you mine
That's what makes you (mine) mine
That's what makes you mine
That's what makes you mine

It all seems so improbable
I never would have thought that you're the one for me
The definition of impossible
And I'm never gonna let you go

We just don't make sense
We don't work on paper
We're so not right

But that's what makes you
We just don't make sense
We don't work on paper
We're so not right
But that's what makes you (mine)
Mine, that's what makes you mine

We (mine) just don't make sense
We don't work on paper
We're so not right
But that's what makes you
We (mine) just don't make sense
We don't work on paper
We're so not right
But that's what makes you mine
That's what makes you mine
