

# Gatekeeper (John Kong Remix)

[Feist](#)

Well it's time to begin as the summer sets in  
It's the scene  
You set for new lovers  
You play your part painting in a new start  
But each gate will open another June, July and August said  
It's probably hard to plan ahead  
June, July and August said  
It's better to bask in each other's Gatekeeper seasons wait for your nod  
Gatekeeper you held your breath  
Made the summer go on and on Well they tried to stay in from the cold and wind  
Making love and making their dinner  
Only to find that the love that they grew in the summer  
Froze February, April said  
Don't be fooled by the summer again  
February, April said  
That half of the year, well we'll never be friends Gatekeeper seasons wait for your nod  
Gatekeeper you held your breath  
Made the winter go on and on Gatekeeper, Gatekeeper, Gatekeeper  
Seasons wait for your nod
