Love Don't Come Easy

Paula Abdul

It all went down at the cantina that she liked
Everyone would watch her as she danced all through the lights
She was the center of attraction in his mind
Maria thought, she'd never find a man worth her time
He came into the room
She really liked the way that he began to move
They were in the mood for romancin'
There's a fire in little Havana
Flame so hot you can't stand it
Things are getting a little crazy
Someone better tell them that
Love don't come that easy
I know you're ready boy
We've got to control
All emotions that we're feeling
Love don't come that easy
We've gotta be strong
We've got to stay strong
As he took her in his arms she got an instant chill
A sense of passion she thought no one could make her feel
Their bodies moved with such intensity
The lights went down made sighs of pleasure
Like there was no one else around
Now she's in the mood
To show him what she wants to do to baby
She's got him crazy
There's a fire in little Havana
Flame so hot ya can't stand it
Thing's are gettin' a little crazy
Someone better tell them that
Love don't come that easy
I know you're ready boy
We've got to control
All emotions that we're feeling

Love don't come that easy
We've gotta be strong
We've got to stay strong
Love don't come, it don't come easy

Love don't come, it don't come easy
He came into the room
She really liked the way that he began to move
They were in the mood for romancin'
There's a fire in little Havana
Flame so hot you can't stand it
Things are getting a little crazy
Can you feel it? Yeah
Are you ready? Yeah
Love don't come that easy
I know you're ready boy
We've got to control
All emotions that we're feeling
Love don't come that easy
We've gotta be strong
We've got to stay strong
Love don't come that easy
I know you're ready boy
We've got to control
All emotions that we're feeling
Love don't come that easy
We've gotta be strong
We've got to stay strong
Love don't come that easy
I know you're ready boy
We've got to control
All emotions that we're feeling
Love don't come that easy
We've gotta be strong
