

National Anthem (Interlude)

[Kelly Price](#)

heres the day i've been waitin on
nfl on sunday morn
but u know we need to talk right now
not rite now the tv is on
move out of da way da national anthem is coming on
if its the national anthem u want
(baby let it wait)
here it here it
(women if u dont go in there an get me my bib and leave me alone)
and i thought i made it clear
(please dont start dis again)
told u to get her out of there
(but i told u she was just a friend)
came through ur house last nite
and her bags were still there
oo
