

Tonight

Diamond Head

Tonight
Oh Tonight
Let's leave it all far behind
Tonight
Oh tonight
All the stars are shining bright And the face in the moon has the blackest eyes
Surrounded by an infinity of fires
Listen to the wind you can hear it cry
This burning light is sure to die
Tonight
Oh tonight
Gonna leave this world far behind
Tonight
Oh tonight
All the stars are shining bright Someday we'll find our paradise
Release the fears that control your mind
Never let this fire die out tonight
Lying underneath this midnight sky Tonight
Oh tonight
All the stars are shining bright
Tonight
Yeah tonight
Make a wish and hold on tight
It's the darkest blackest night of all
And were waiting for the stars to fall
Let's treasure this moment in time
Forever and always be mine
Forever and always
Forever and always
YEAH!!!
Forever and always
Forever and always
Forever and always
Always...
Always...
Always...
Always...
