

Heartbeat

Remedy Drive

This is a drought
Been living without
The one thing life requires
What a mess
Passionless
Somewhere I lost the fire
Oh my my
Where has it gone
Can anybody turn this beat back on
My heart is fast asleep
Dreaming it could bleed
For something that's real
My desperate appeal
God Im getting tired of the way I feel
When I would rather be alive I want to wake up
I want to restart
Put the drumbeat back in my heart
I need to be revived
Bring me back to life Coming on slow head to toe
The pulse is back again
Its grace in my veins - replacing the pain
Bringing me back from the dead
Oh my my now I can see
You heard me cry emergency
Screaming out for help
You saved me from myself
The fires returned Im letting it burn
Theres nothing better in the whole wide world
It feels so good to be alive It feels so good to be alive
It feels so good
