

# Stand By Me, Yeah

Sloan

You gotta roll with the punches  
To get to what is real  
Knock down the bastards  
And show them how it feels 'Cause you know  
It's not easy when you feel they  
Go out of their way to get you  
It's not easy when you feel they  
Go out of their way to get to you And all your dreams are coming true  
And now you wish they'd stayed inside you It's not easy when you feel they  
Go out of their way to get you  
It's not easy when you feel they  
Go out of their way to get to you Stand by me  
Stand by me, yeah  
Stand by me  
Stand by me, yeah Stand by me  
Stand by me, yeah  
Stand by me Line them up, knock them down  
They're all come running  
When the word gets around You gotta roll with the punches  
To get to what is real  
Knock down the bastards  
And show them how it feels 'Cause you know  
It's not easy when you feel they  
Go out of their way to get you  
It's not easy when you feel they  
Go out of their way to get to you Stand by me  
Stand by me, yeah  
Stand by me  
Stand by me, yeah Stand by me  
Stand by me, yeah  
Stand by me Line them up, knock them down  
They're all come running  
When the word gets around
