

Feel That Blood

Spooky Mansion

[Verse 1]

You won't be back this way, your life's in a different place
Before you went away, you made it pretty plain
Well I'm all dressed up in mud, that's my favorite thing
No use mourning change, we all gotta catch a plane
And your magazines get sent, ya to my address
I read it in the bath, remembering what's left
And even if came, well it wouldn't be the same
Everything we'd say, everything we'd say

[Chorus]

My soft hands can't stand to be apart from you
Your sweet stare, yeah it ain't fair to look right through
At me, my love, my love wants to go
That's you, that's you, my love wants to go

[Verse 2]

All dressed up in gray, that's my favorite name
No use mourning change, we all gotta catch a plane
Life seems pretty strange, we all gotta catch a plane
Don't time to really stay, just waiting for a plane
And your magazines get sent, ya to my address
I read it in the bath, remembering what's left
And even if you call, ya even if you call
I'd still be all alone, after the call's gone

[Chorus]

My soft hands can't stand to be apart from you
Your sweet stare, it ain't fair to look right through
At me, my love, my love wants to go
That's you, that's you, my love wants to go

[Verse 3]

I can even feel you in my blood
Well, I just got off and I saw you on the street
Do you think of me? You don't think of me
And you wanna leave, you don't think of me
I can even feel you in my blood
And I want your love but you don't give love
You don't give love, no you don't give love

And you wanna leave, ya you don't give love
I can even feel you in my blood
