

Resolution

[Matt Corby](#)

Im giving up, this whole lie is on me
Call it out like a family Instead I bide my time, get a ride
Until the rubber leaves the road You said dont lie so I made the truth
Seemed like a lie to even you Control your fear, its clear
That you did not know where youre going to So dont you worry
Youll be my resolution
Characters of no illusion
You will be my resolution One month down and its in sight
Oh Im guaranteed to lose my mind
It's dangerous to speak and sigh
You might know what Im trying to hide From the cradle to quarter age
Oh I bought the book but didnt flip the page
Readiness is near we steer
Far away from the coming of days So dont you worry
Youll be my resolution
Characters of no illusion
You will be my resolution
Characters of no illusion
You will be my resolution Turn around put it down and see
That this is really the place to be
Im not you, nor he me
But were both moving steady
