Sleep Well Tonight

Spoken

Im sending this letter to you in hopes that it finds you well
I wanted to say I love and I miss you
I pray that you sleep well tonight, I hope you dream of me
Ill write again tomorrow, Ill be home soonIm a million miles away from you
I cant get you off my mind
Not that Im trying but
All I want is to hold you again
Sleep well tonightAll these miles that stand between us get shorter everyday
Im calling to say I love you and I miss you
I can see the city skyline, Im not that far away
Pull into the driveway and I see youIm a million miles away from you
I cant get you off my mind
Not that Im trying but
All I want is to hold you again
Sleep well tonightSleep well tonight
Sleep well tonight
Sleep well tonightIm a million miles away from you
I cant get you off my mind
Not that Im trying but
All I want is to hold you again
Sleep well tonightIm a million miles away
I cant get you off my mind
All I want is to hold you again
Sleep well tonightSleep well tonight
Sleep well tonight
Sleep well tonight
Sleep well tonight
