

This One's For Me and You (feat. New Edition)

Johnny Gill

Listen

You're like the melody that never goes away
You're the sweetest thing, an easy song to sing
You're like a work of art, so priceless to me
A timeless beauty from the movie screen that never ever seems to fade

So baby put that glass down and turn the music up
It's like these words was written just for the two of us
Do you remember that day in September when we fell in love?

This one's for me and you so let the record play
I love the way it makes your body move
Sounds so good to me, remind me of you
When the records play a melody, love fills up the room
Sounds so good to me, this one's for me and you

Girl we came so far and beat out all the odds
They never thought we make it, but I knew it from the start
So let's celebrate 'cause we got it good
A classic going down in history, feel just like we won the lottery

So baby put that glass down and turn the music up
It's like these words was written just for the two of us
Do you remember that day in September when we fell in love?

This one's for me and you so let the record play
I love the way it makes your body move
Sounds so good to me, remind me of you
When the records play a melody, love fills up the room
Sounds so good to me, this one's for me and you

Let it play, let it play, let it play
This one's for my baby girl
Let it play, let it play, let it play
This one's for you me and you
Let it play, let it play, let it play
Just for me and you girl
Let it play, let it play, let it play

So baby put that glass down and turn the music up

It's like these words was written just for the two of us
Do you remember that day in September when we fell in love?

This one's for me and you so let the record play
I love the way it makes your body move
Sounds so good to me, remind me of you
When the records play a melody, love fills up the room
Sounds so good to me, this one's for me and you
