

# All In One Day

Ultravox

Strange how the change came all in a day  
Counting down and counting down  
And waiting for the minute  
We could touch a world  
Where every heart had love to offerHeart-felt passion building around  
Feel the love, feel the love  
Sharing the strain  
From where apathy reigns  
For a dying worldAll in one day  
All in one day  
When the hands reached out  
Across an ocean  
EverywhereAll in one day  
All in one day  
When the people came  
And stood together  
EverywhereAll in one day  
All in one day  
When the hands reached out  
Across an ocean  
EverywhereAll in one day  
All in one day  
When the people came  
And stood together  
Everywhere  
Everywhere
