

Black Skinhead Coconut Dogfight

Skunk Anansie

"Blackie" in the closet. "Whitie" in the crowd.
Bugeyed, cause your later in the mirror,
and you know you're gonna ?? from your doglife. Fixing up the motor
So you can smash`em in, in their beds.
So you have all your never-ending glories,
But we know you gotta stick along with the hard types.
But who`s gonna know you when it`s over ?
And who`s gonna know you when it`s over, it`s over.
Who`s gonna show you,
If you just know that they don`t want you
When it`s over, when the dogfight is over. Givin` you the spotlight,
But we know you are one of a blind.
Spooky, how you always stick to brown-ones,
But they know you have it on your own
When it`s over, it`s over.
But who`s gonna know you when it`s over ?
And who`s gonna know you when it`s over, it`s over.
And who`s gonna show you,
That you should know that they don`t want you,
When it`s over, when the dogfight is over. But who`s gonna know you when it`s over?
Who`s gonna know you when it`s over?
And who`s gonna show you
That you should know that they don`t want you
When it`s over, when the dogfight is over. But who`s gonna know you when it`s over?
Who`s gonna know you when it`s over, it`s over.
And who`s gonna show you
That you should know that they don`t want you
When it`s over, when the dogfight is over. I never tell you what you want
I never tell you what you want
I gotta tell you what you wanna love
I never wanted, what your lover want is gold.
