

My Mother

Jimmy Buckley

My Mother

Everyday I call my mother, just to tell her that I love her
That's a thing I'm very proud to say
And I'm so glad to have her, to me she's like no other
She's the reason I'm the man you see today.

How her heart was filled with joy,
When she saw her little boy,
The first time that she held me in her arms,
And from that moment on, she and dad were both the ones,
Who cared for me and kept me from all harm.

Chorus:

So when you see your mother, tell her that you love her,
Hold her like you never wish to part,
When this world it seems unfair,
She's the one who's always there.
My mother means the kindest loving heart.

Since I've grown from boy to man,
I've come to understand,
The love that lived within a mothers heart,
That's why I call her everyday,
If I'm near or faraway,
For I know someday she and I must part.

(Key change)

So always hold her dear,
As you count each passing year,
Say your sorry if you've caused her pain of strife,
And when it's your birthday,
Just call her up and say,
Thank you mom for giving me the gift of life,

Chours!

Last Part.

When this world it seems unfair
She's the one who's always there
My mother means the kindest loving heart
