

# On My Own

Miley Cyrus

Hey! I ain't looking at you  
For no particular reason!  
Its just the right spot for me to be in  
I gotta open that door  
Hey, it gotta get open hey, hey!  
I'mma push my way through, just like a rubber  
And smile for the camera  
Damn, I feel awesome!  
But she does a little more  
Gotta get it open!Hook:  
You never listen when I need someone to talk to  
So you switch the subject  
Because its beyond you.  
When you talk about your dreams, I'm never included  
I need to stop sleeping on myself  
Wake up and do it on my own!  
I'll find a way, yeah  
And I'll do it on my own, hey!  
I can do anything, yeahCan't you get it done with the help of no one  
I came into this world by myself  
So I don't need nobody else!  
Think I just begun,  
So much I do, so young  
Don't be afraid to be alone  
You'll get it done on your own!  
Uh, uh, uh!I know you're in there  
Open up, open up!  
Just like the feds, looking for the subs  
Three knocks at the door  
I gotta get it open!  
I'm so confused with all the traffic  
I'mma skip the lane/line  
Who cares where I have been?  
I gotta stay on that course  
I gotta get it open!Hook:  
You never listen when I need someone to talk to  
So you switch the subject  
Because its beyond you.  
When you talk about your dreams, I'm never included

I need to stop sleeping on myself  
Wake up and do it on my own!  
I'll find a way, yeah  
And I'll do it on my own, hey!  
I can do anything, yeah Can't you get it done with the help of no one  
I came into this world by myself  
So I don't need nobody else!  
Think I just begun,  
So much I do, so young  
Don't be afraid to be alone  
You'll get it done on your own!  
Uh, uh, uh! I know you're in there  
Open up, open up!  
Just like the feds, looking for the subs  
Three knocks at the door  
I gotta get it open!  
I'm so confused with all the traffic  
I'mma skip the lane/line  
Who cares where I have been?  
I gotta stay on that course  
I gotta get it open! Hook:  
You never listen when I need someone to talk to  
So you switch the subject  
Cause, cause it's beyond you  
When you talk about your dreams, I'm never included  
I need to stop sleeping on myself  
Wake up and do it on my own!  
I found a way, yeah  
And I'll do it on my on  
I can do anything, yeah!  
And I'll do it on my own! Can't you get it done with the help of no one  
I came into this world by myself  
So I don't need nobody else!  
Think I just begun,  
So much I do, so young  
Don't be afraid to be alone  
You'll get it done on your own!  
Uh, uh, uh! I know you're in there  
Open up, open up!  
Just like the feds, looking for the subs  
Three knocks at the door  
I gotta get it open!  
I'm so confused with all the traffic  
I'mma skip the lane/line  
Who cares where I have been?

I gotta stay on that course  
I gotta get it open!
