

# Fell Into

## Jackson United

Do what you want  
Do what you please  
Take everything  
Bleed with meHere, dry your eyes  
Let me pacify  
While you justify  
Bleach white the liesFall into a better vision of you  
You used to be in love with your ego  
Lay where you fell  
A little slip of your will  
You think you do but you don't knowDo what you want  
Do what you please  
Take everything  
Bleed with meFall into a better vision of you  
You used to be in love with your ego  
Lay where you fell  
A little slip of your will  
You think you do but you don't know
