Is There Someone Out There?

Code Red

Yeah yeah
Ooh
Sittin' by the phone but it's not ringing
Nobody cares who am I kiddin'
But I still got hope
See all of my life I've been searchin'
For a girl to end this yearnin'
Come out and fulfil my dreams
Baby 'cos I feel so alone
I ain't got a love to call my own and so i just want to know
CHORUS:
Is there someone out there?
Someone who cares for me
Someone true through the good and bad times too
Is there someone out there?
Is it you?
Oh
If you're there and if you're listenin'
If you're the girl that I've been missin'
Then just make your move
Show me thrill me don't waste time just tell me
Cos you've got nothing to lose
Don't ya know I dream of you girl
The scent of your hair, strawberry lips even the perfume you wear
CHORUS
Could you be the light of my life?
The girl of my dreams?
And could this be love and what does love mean?
Though nothing's for sure we might find romance
If you are something special
Then let's take our chance
Oh yeah
Repeat CHORUS to end
