Firewall

Majorleap

Firewall

Little souls are strange pack animals
Little souls they rise when the other fall
It is cold, but itâ€™s better today
It is cold, but they're still in your way

Since you made it through
They saw the best in you
Since you made it through
They saw the best in you

Simple minds are building up their firewall
Simple minds get threatened by the abnormal
It is cold, but itâ€™s better today
It is cold, but they're still in your way

Since you made it through
They saw the best in you
Since you made it through
They saw the best in you

All of the roads you made
Linger and silent you came
Theyâ€™re kind of different you said
Only same for Mom and Dad

Since you made it through
They saw the best in you
Since you made it through
They saw the best in you
