Find a Way

Big Brovaz

Man Im so broke it ain't a joke
Some people got rims I got spokes
Im working with change they got notes
And I dont know how much longer I can copeIm about to fall over the edge
Im in deep way over my head
When I get ten pounds, I make it spread
'Cuz that gyro check ain't hardly no breadWhen your broke like us you dont joke much
Only window shop, look dont touch
Ask the price of stuff then say how much
Nah, wait there how much?How long would you last without no cash
In this fast moving world?
Could you really survive
All the problems within?Better get moving if you want that
Bread is there for the taking better get your share
Monies for making, what Im saying
If youre sleeping, you ain't eating
How you goin' to cope if you dont stack those notes
You need to learn to be a pioneer
You can find a way to make it through the dayAnother day, another red letter
From some debt collector
Over something I've done, got in debt for
Coming over my house to apply the pressure
Yelling through the letter box
One day we gonna getcha!Acting like I ain't home till theyre gone
Everybody I knows broke, I cant get a loan
Im trying not to loose focus buts its hopeless
I get served an eviction noticeAnd the landlord wants me out on my ear
Gave me ten days to pay or I'm outta here
I really need to clear up my arrears
Before I end up, sleeping in a park somewhereHow long would you last without no cash
In this fast moving world?
Could you really survive
All the problems within?Better get moving if you want that
Bread is there for the taking better get your share
Monies for making, what Im saying
If youre sleeping you ain't eating
How you goin' to cope if you dont stack those notes
You need to learn to be a pioneer
You can find a way to make it through the dayI know suffering I fell your pain

Its hard to keep the cheddar coming in
Wanna survive, then you've gotta stay hustling?
Struggling chasing the doe
Just keep stacking that paper and making it growI know suffering I fell your pain
Its hard to keep the cheddar coming in
Wanna survive, then you've gotta stay hustling?
Struggling chasing the doe
Just keep stacking that paper and making it growBut I find it hard for me to cope
Even when Im paid, Im always broke
I got more going out than I've got coming in
Cant buy certain things, no ice style ring, no bling bling
No 20 inch rims spinning, just a sinking feeling
No this cant be living I need at least a millionBetter get moving if you want that
Bread is there for the taking better get your share
Monies for making, what Im saying
If youre sleeping you ain't eating
How you goin' to cope if you dont stack those notes
You need to learn to be a pioneer
You can find a way to make it through the dayBetter get moving if you want that
Bread is there for the taking better get your share
Monies for making, what Im saying
If youre sleeping you ain't eating
How you goin' to cope if you dont stack those notes
You need to learn to be a pioneer
You can find a way to make it through the dayYeah
You can find a way
