

# Find a Way

## Big Brovaz

Man Im so broke it ain't a joke  
Some people got rims I got spokes  
Im working with change they got notes  
And I dont know how much longer I can copeIm about to fall over the edge  
Im in deep way over my head  
When I get ten pounds, I make it spread  
'Cuz that gyro check ain't hardly no breadWhen your broke like us you dont joke much  
Only window shop, look dont touch  
Ask the price of stuff then say how much  
Nah, wait there how much?How long would you last without no cash  
In this fast moving world?  
Could you really survive  
All the problems within?Better get moving if you want that  
Bread is there for the taking better get your share  
Monies for making, what Im saying  
If youre sleeping, you ain't eating  
How you goin' to cope if you dont stack those notes  
You need to learn to be a pioneer  
You can find a way to make it through the dayAnother day, another red letter  
From some debt collector  
Over something I've done, got in debt for  
Coming over my house to apply the pressure  
Yelling through the letter box  
One day we gonna getcha!Acting like I ain't home till theyre gone  
Everybody I knows broke, I cant get a loan  
Im trying not to loose focus but its hopeless  
I get served an eviction noticeAnd the landlord wants me out on my ear  
Gave me ten days to pay or I'm outta here  
I really need to clear up my arrears  
Before I end up, sleeping in a park somewhereHow long would you last without no cash  
In this fast moving world?  
Could you really survive  
All the problems within?Better get moving if you want that  
Bread is there for the taking better get your share  
Monies for making, what Im saying  
If youre sleeping you ain't eating  
How you goin' to cope if you dont stack those notes  
You need to learn to be a pioneer  
You can find a way to make it through the dayI know suffering I fell your pain

Its hard to keep the cheddar coming in  
Wanna survive, then you've gotta stay hustling?  
Struggling chasing the doe  
Just keep stacking that paper and making it grow I know suffering I fell your pain  
Its hard to keep the cheddar coming in  
Wanna survive, then you've gotta stay hustling?  
Struggling chasing the doe  
Just keep stacking that paper and making it grow But I find it hard for me to cope  
Even when Im paid, Im always broke  
I got more going out than I've got coming in  
Cant buy certain things, no ice style ring, no bling bling  
No 20 inch rims spinning, just a sinking feeling  
No this cant be living I need at least a million Better get moving if you want that  
Bread is there for the taking better get your share  
Monies for making, what Im saying  
If youre sleeping you ain't eating  
How you goin' to cope if you dont stack those notes  
You need to learn to be a pioneer  
You can find a way to make it through the day Better get moving if you want that  
Bread is there for the taking better get your share  
Monies for making, what Im saying  
If youre sleeping you ain't eating  
How you goin' to cope if you dont stack those notes  
You need to learn to be a pioneer  
You can find a way to make it through the day Yeah  
You can find a way
