

Have You Seen That Girl

[Lee Ann Womack](#)

Innocent, confident with a hint of curiosity
And an air of what you see is what you get
Fun to be around, laugh at herself
Never worried, life is short but what's the hurry?
Bright eyed and ready to take on the world
Have you seen that girl
That everybody says I used to be?
Have you seen that girl?
Where along the way did I lose me?
Have you seen that girl?
She was full of life
Looked on the brighter side
If it was worth a chance she'd take it
Said that life is what you make it
But a few wrong moves led to a few wrong turns
And once your burned you're not the same
You tend to shy from the flame
I hate to think she's givin' up her dream
Have you seen that girl
That everybody says I used to be?
Have you seen that girl?
Where along the way did I lose me?
Have you seen that girl?
Where along the way did I lose me?
Have you seen that girl?
