The Source

Chris Potter

Morning comes and I'm up on time again
Upon getting up and I'm down on what I got up for
It's been a long time my friend
Boring, dumb, and fine
So why you wanna bring that up
You haven't changed, neither have II feel it started at the source
What is it that makes you cry and why?When you see a documentary and know the outcome
You still hope Hitler will blow up
And that it's fucked
And that Kennedy will duck
I feel it started at the source
