

# Rosalie

## La Galvaude

She's quite the mediator  
A smoother operator you will never see  
She'll see you later  
No one dare disobey her openly  
She knows music  
I know music too, you see  
She's got the power  
The teen queen, Rosalie  
Rosalie, Rosalie  
Rosalie, Rosalie  
She's got the pleasure  
Comes from all the cornerstones of the world  
She's so fantastic  
She's everybody's favorite little record girl  
She knows music  
I know music too, you see  
She's got the power  
I got the power, Rosalie

Rosalie, Rosalie, yeah  
Rosalie, Rosalie  
Down on me, Rosalie  
Shine on me, will you please  
From 'Chattanooga' to good old 'Booga Loosa'  
You can hear her fine  
She makes the choices  
Then you'd best be smiling when it's choosing time  
She knows music  
I know music too, you see  
She's got the power  
She is a tower, Rosalie  
Rosalie, Rosalie, yeah  
Rosalie, Rosalie, yeah  
Rosalie, Rosalie, yeah  
Rosalie, Rosalie, yeah  
Rosalie, Rosalie
