

Here To Mars (Big Beige / 4th St Demos)

Coheed and Cambria

Hey, stranger
Been a long while since I've loved you or anything
How the times have changed
Distorted, a figure set in trend, emotionless
And the words lose all their means
(Goodbye, lost and long forgotten)
Discouraged might be the term you choose when you look
Looking for an excuse
My company has gone mute
Since listening isn't my strongest suit
I'm leaving you with this here, okay?
Over and out there Honey, it's in the stars
And you're my everything from here to Mars
And every word I say I truly mean
Dear darling, I hope I'm being clear
'Cause there's no one like you on earth
That can be my universe Understood, give me a second chance
I know I could be your better half It's in the stars
And you're my everything from here to Mars
And every word I say I truly mean
Dear darling, I hope I'm being clear
'Cause there's no one like you on earth
That can be my universe Pardon me, I think I'm going
Out of my head and into the worst
A world without your verse
A world without you hurts
Please, I'm sorry
I will never let you go
I will never let you go
I will never let you go It's in the stars
And you're my everything from here to Mars
And every word I say I truly mean
Dear darling, I hope I'm being clear
'Cause there's no one like you on earth
That can be my burning star
And you're my everything from here to Mars
And every word I, every word I mean
Dear darling, I hope I'm being clean
'Cause there's no one like you on Earth

That can be my universe
