

The Invitation

Attila

Give in to your temptations
Stop worrying about what's wrong or right
Pick up the conversation
From the last point that we left off You always have your way with me
Pick up the conversation
From the last point that we left off You always have your way with my mind
Seducing thoughts control me all of the time
All of these thoughts are combining
And I'm contemplating my next big move What will you do if these feelings persist?
Give in, this urge you cannot resist
All of these thoughts are combining
And I'm contemplating my next big move
What will you do if these feelings persist?
Give in, this urge you cannot resist
Look at me now, sit in with me
As I have a chit chat with the devil upon my shoulder Who thought it ever would come to this?
Everyone's got a secret to tell
So tell me something dirty
Tell me something that I'm gonna like Were losing time, so are you
Don't let useless emotions inflict you in your daily life
I've got a feeling that there's more where that came from
And I'm hoping I can get some more of you
Breathe all you've got into my soul, I want it all or nothing at all Don't hold back, accept this invitation
I don't need any words or explanation
Me and you possess a love that could break the mold
When we're together we can overcome the world
So please accept this invitation
I don't need any words or explanation
Me and you possess a love that could break the mold
When were together we can overcome the world
Bounce, is anybody even listening? No
