This Is How We Party

S.O.A.P.

This is how we party, fooling with your body
Come on everybody, can't get enough of you
This is how we party, fooling with your body
Come on everybody, can't get enough of youHere we are back in the game
Raise your hands and feel the rain
Got one thing we've got to try
Makin' many money, makin' big boys cryToo bad that he's a liar
She's so cool but her hair is on fire
Letting it go make it feel strong
We're gonna set it off till the break of dawnThis is how we do it when somebody
Wanna turn you down, you got to keep on movin'
Don't let nobody get you, hit you
Get you down to the ground, hear when we sayThis is how we party, fooling with your body
Come on everybody, can't get enough of you
This is how we party, fooling with your body
Come on everybody, can't get enough of youSo come on everybody, we can get it together
The sun will shine in any kind of weather
Just stop trippin' and change your fear
We come to party when we come around hereLisa lives she never lies, Simon says no time to cry
Doing what we like, we can do it all night, babyThis is how we do it when somebody
Wanna turn you down, you got to keep on movin'
Don't let nobody get you, hit you
Get you down to the ground, hear when we sayThis is how we party, fooling with your body
Come on everybody, can't get enough of you
This is how we party, fooling with your body
Come on everybody, can't get enough of youI'm doing it for you if you're doing it for me
(You)
Baby, we'll keep on moving, don't let 'em get you down
Just listen to the sound, hear when we sayThis is how we party, fooling with your body
Come on everybody, can't get enough of you
This is how we party, fooling with your body
Come on everybody, can't get enough of youFooling with your body, can't get enough of you
This is how we party, fooling with your body
Come on everybody, can't get enough of you
