

From Now On

Kill Hannah

We collided head-on and they said that, we would not live very long
I knew you were my love but they laughed
'Cos we were just too young to know
From now on, I'll wait here for you
From now on, I'm waiting for you
You tore me apart, broke all of my bones
And shot right through my heart
I always used to pretend that, the hero really gets the girl in the end

From now on, I'll wait here for you
From now on, I'm waiting for you
But tonight, I'm crazy like a teenage dream
Alive but buried now or so it seems
Suprise
(Don't cover your eyes)
