

Cowboys Like You

Amelia Presley

Verse 1:

Woke up alone this morning
In the living room chair
Whiskey in my right hand and
Smoke in my hair, and
You could not save me
If you cared to try
But I can thank you for the headache
And the tear in my eye

Chorus:

Cowboys like you ain't hard to find
They're all the same, every time
Just like Texas rain, you're never around
You never stay long then you're leaving this town
And you're gone

Verse 2:

Well, I guess that I could've warned you
About your flat tire
On that ole rusty truck
That someone set fire
Now, get on to your rodeo
Guess you'll have to drive your horse
Don't let your big hat
Get caught in the door
Guess that I could've warned you
About that girl outside
The one that ain't too happy
About you havin' a wife
But, babe, my head is poundin'
Just like you're heart will be
Guess you'll learn your lesson
Not to mess with hicks like me

REPEAT CHORUS

Bridge:

There's so many things I would have done to keep you
But, baby, I knew it was only a matter of time

Bottle in hand, I don't need a man who ain't true
So, take your memory out of my life with all your lies
Take your memory out of my life with all your lies

REPEAT CHORUS
