

Something Magical

Rob Murat

You're my sister, my mother
You're my baby girl, my baby boo
That something special about
The things you do
What would I be without loving you Cause you're wonderful
And you're beautiful
That something magical
About you It's powerful
Deep in your soul
That something magical
About you I've seen you up
I've seen you down
I've seen you struggle
But never drawn
Love when you smile
Hate when you cry
Seen you suffer
But still you shine Cause you're wonderful
And you're beautiful
That something magical
About you It's powerful
Deep in your soul
That something magical
About you You, complete me
Yes, you're my destiny
And I will always be
Grateful for your love
Grateful for your care
I'm hoping that you understand It's like my world with falls around
It can't been without
Even when you'll call
I know you're there Said I'm proud to be your brother
I'm proud to be your lover
Said I'm proud to be your number one You inspire me
You take me heart
You set my soul on fire I'm in love
I'm in love
I'm in love You're wonderful
And you're beautiful

That something magical
About youIt's powerful
Deep in your soul
That something magical
About you
