

# Throwdown

## Pillar

Light it up  
Training day is over  
It's been laid on the line  
I've given this all I've got  
And I'll find my time to shine  
I will settle for no less  
Than the best I've got to give  
Only the strong survive  
When they try to take you down  
Toe to toe and pound for pound  
It's time to step up it's time to throwdown  
There's nothing you say that could ever fade me  
Serving up another lesson learned  
Light it up and let the fire burn  
There's nothing you say that could ever change me  
Toe to toe and pound for pound  
Step right up it's time to throwdown  
The cage awaits this moment  
The tension pushes through  
The stage is set to showdown  
But I'm not turning my back on you  
Face to face with the enemy  
Giving in to you I refuse  
Somebody's gotta win  
And I don't know how to lose

Toe to toe and pound for pound  
It's time to throwdown  
There's nothing you say that could ever fade me  
Serving up another lesson learned  
Light it up and let the fire burn  
There's nothing you say that could ever change me  
Toe to toe and pound for pound  
Step right up it's time to throwdown  
There's nothing you say that could ever fade me  
Serving up another lesson learned  
Light it up and let the fire burn  
There's nothing you say that could ever change me  
Step right up it's time to throwdown

Light it up  
There's nothing you say that could ever fade me  
Serving up another lesson learned  
Light it up and let the fire burn  
There's nothing you say that could ever change me  
Toe to toe and pound for pound  
Step right up it's time to throwdown  
There's nothing you say that could ever fade me  
Serving up another lesson learned  
Light it up and let the fire burn  
There's nothing you say that could ever change me  
Step right up it's time to throwdown
