All for You

Residual

Crystal lies all my life
I was only Vacan for the night
On and on, never ends
I was only tryna to be your friend
Hold my heart I'm steady hold my love i'm ready now oohh and it's all you
Leave me now cause I won't go
And I was only tryna do you wrong
You keep saying life is full, we keep living like we're terminal
Hold my heart I'm steady hold my love I'm ready now oohh and it's all you
Lay me down cause I won't sleep always dreaming bout what we could be
I never run to scared to chase no I haven't wasted yesterday
Hold my heart I'm steady, hold my love I'm ready now oohh and it's all you X3
Hold my heart I'm steady, hold my love I'm ready now oohh and it's all for you
