

America Is

Violent Femmes

America is

America is

America is

America is

America is the home of the hypocrite

America is the home of the hypocrite

America is the home of the hypocrite

American dream so f-f-full of it

Look at the Indians, look at the Blacks

Look at the figures, look at the facts

Look at the facts, the facts not the lies

When you find out, big surprise

America is the home of the hypocrite

America is the home of the hypocrite

America is the home of the hypocrite

American dream so f-f-full of it

Check out the Indians, check out the Blacks

And you check out the figures, and you check out the facts

Check out some facts, check out the facts not the lies

When you find out, it's a big surprise right between the eyes

America is the home of the hypocrite

America is the home of the hypocrite

America is the home of the hypocrite

American dream is only a dream

No desperation limit

New desperation level

Even though my nose don't work

I smell trouble, I smell trouble

No desperation limit

New desperation level

Murder, murder in the Government

Say you're sorry, say you're sorry

No desperation limit

New desperation level

Turn the key, turn the lock

Nationalism, you can suck my

No desperation limit

New desperation level

Watch how the world's progressin'

Everywhere
Aggression, aggression
Aggression, aggression
Aggression, aggression
